Curriculum vitae

WORK EXPERIENCE

PRESENT **Quinbay Technologies Sr. SDE (1 year - present) (quinbay.com)**

Worked for BliBli.com, in optimising search infrastructure in term of cost and latency.

Planned, benchmarked and planned migration strategy to move from GCP N1 (Intel 1st) to N2D (AMD EPYC) instance, to gain **30% gain in single core performance**

Strategized, developed and benchmark multi-sharded solr collection from single shard to better scale the cluster horizontally with growing index size, making the collection **future proof in terms of hardware resources for next 5years**

SEPTEMBER 2021
SPOT Award, Quinbay Tech.

SEPTEMBER 2018
Best New Hire Award, Coviam Tech.

302, 31/4/1 - Charvik Enclave, Somasundarpalya, HSR Layout, Bangalore
+91 9176046531
sayan.das@quinbay.com

2018 **Coviam Technologies SDE (2 years 4 months) (coviam.com)**

Worked on developing low latency distributed system which can search over millions of documents

Researched and developed upon scaling up Apache Solr to support **10x more document** without compromising upon the performance by re-architecting search infrastructure.

Tuned garbage collector for solr cluster, to **reduce 90% of compute workload** done by garbage collector. Here is the article published for the entire setup and process.

2017 **Coviam Technologies Intern (6 months) (coviam.com)**

Understanding and learning the core frameworks and technologies used as a standard.

Designed and developed the entire adword feed generation system which include Google, Facebook and other affiliated partners

Deep diving through how search works in an e-commerce world

2016 **Signzy Technologies Pvt Ltd Intern (2 months) (signzy.com)**

Core API integrations to user facing product. Sandbox system for API docs for the clients.

EDUCATION

2000 – 2014 **High School**
CLASS XII: 88% (CBSE BOARD)
Delhi Public School, Haridwar

2014 – 2018 **B.Tech in Computer Science & Eng.**
CGPA: 8.48
SRM University, Kattankulathur

COMMUNICATION SKILLS

HINDI Native speaker
ENGLISH Oral: fair – Written: good
BENGALI Oral: good

SOFTWARE SKILLS

GOOD LEVEL Java 8, Python 2.7, Spring Boot, Solr
INTERMEDIATE Bash, Mongo, Redis, Vue.js, Angular 1.x
BASIC LEVEL ~~La~~TeX, SQL Databases
